*\* The dollar amounts each year for these programs are the estimates provided by CBO at the time the farm bill passed. They are re-estimated each year, and thus amounts given in our FY 10 appropriations chart can be different than the numbers provided here.*

## NOTES ON CHART:

n/a = not applicable

ss = authorized at “such sums as may be appropriated” rather than a specific dollar amount

# = Items with number sign (#) are “mandatory” programs funded directly via the farm bill through the Commodity Credit Corporation or directly from the Treasury that do not need to be appropriated, though sometimes appropriators raid the mandatory funding via “limitations” provisions. Some mandatory accounts receive the same funding level each year, but others vary by year.

**Discretionary Programs.** These programs are authorized by the 2008 Farm Bill, an earlier farm bill, or another agricultural authorization bill for which the actual funding level for the program in any given year is determined by the annual appropriations bill. Discretionary programs also include programs without specific authorizations that are started by USDA under more general authorities.

**Mandatory Programs.** These programs were provided mandatory (direct) funding in the 2008 Farm Bill, 2002 Farm Bill, or some earlier authorization bill, not normally subject to change in the appropriations bill. However, over the years, the appropriations committee has sometimes made use of a technique to limit or eliminate mandatory spending by not providing appropriated funds to pay for the salaries and expenses of USDA staff to implement the program. This allows the appropriators to kill or limit the program in question and then spend the money saved on discretionary programs.

**No Limitation** means that the mandatory funding provided by the farm bill (see the shaded columns) was left intact at the farm bill level for mandatory funding.

- 
- i Prior to 2008 Farm Bill, AFRI line equals the combination of the National Research Initiative and the Initiative for Future Ag and Food Systems
  - ii The proposal would also include \$4 million request for a farm labor grant program to be by OA&O.
  - iii Includes \$3.5 million for coop development centers targeting socially disadvantaged producers.
  - iv For FY 10, there will be \$4 million mandatory not used in FY 09 + \$4 million mandatory from FY 10 + \$5 million discretionary, for total of \$13 m.
  - v Five percent of the appropriated level is designated for the Agricultural Marketing Research Center at Iowa State University.
  - vi The budget proposes to spend \$35 million to help finance grocery stores in rural and urban “food deserts”, to be run directly by the Office of the Secretary but administered through the Intermediary Relending Program in the Rural Business-Cooperative Service.
  - vii Estimate for BCAP is a confusing \$263 million for FY 10 and \$479 million for FY 11. USDA and OMB have already allocated \$514 million for FY 10.
  - viii Includes a \$1.9 million earmark for Wisconsin.
  - ix Includes a \$338,000 earmark for Wisconsin.
  - x Includes regular appropriation of \$222.3 million plus \$360 million from supplemental appropriations bill.
  - xi Includes regular appropriation of \$575.1 million, plus \$174 million from economic recovery (stimulus) bill, plus \$400 million from supplemental.
  - xii Includes \$1,017 million regular appropriation, plus \$50 million from supplemental appropriations bill.
  - xiii Includes funding for Conservation *Security* Program contracts as well as new Conservation *Stewardship* Program contracts.
