## NOTES ON CHART:

**n/a** = not applicable

**ss** = authorized at “such sums as may be appropriated” rather than a specific dollar amount

**#** = Items with number sign (#) are “mandatory” programs funded directly via the farm bill through the Commodity Credit Corporation or directly from the Treasury that do not need to be appropriated, though sometimes appropriators raid the mandatory funding via “limitations” provisions. Some mandatory accounts receive the same funding level each year, but others vary by year.

***Discretionary Programs.*** These programs are authorized by the 2008 Farm Bill, an earlier farm bill, or another agricultural authorization bill for which the actual funding level for the program in any given year is determined by the annual appropriations bill. Discretionary programs also include programs without specific authorizations that are started by USDA under more general authorities.

***Mandatory Programs.*** These programs were provided mandatory (direct) funding in the 2008 Farm Bill, 2002 Farm Bill, or some earlier authorization bill, not normally subject to change in the appropriations bill. However, over the years, the appropriations committee has sometimes made use of a technique to limit or eliminate mandatory spending by not providing appropriated funds to pay for the salaries and expenses of USDA staff to implement the program. This allows the appropriators to kill or limit the program in question and then spend the money saved on discretionary programs.

***No Limitation*** means that the mandatory funding provided by the farm bill (see the shaded columns) was left intact at the farm bill level for mandatory funding.

- 
- <sup>1</sup> Amounts in this column do not reflect an additional 0.2% across the board cut to all programs in the FY 11 final bill.
- <sup>2</sup> President's request includes \$3.5 million for coop development centers targeting socially disadvantaged producers (increased from \$2.9M in FY2012); final FY13 bill includes \$3.23 million (\$3.5 million less sequestration and rescission).
- <sup>3</sup> For FY 10, there was \$4 million mandatory not used in FY 09 + \$4 million mandatory from FY 10 + \$5 million discretionary, for total of \$13 million.
- <sup>4</sup> Five percent of the appropriated level is designated for the Agricultural Marketing Research Center at Iowa State University.
- <sup>5</sup> For FY 13, the House and Senate propose that the entire \$3.4 million be for loans, which would total \$14.2 million in loan volume. In FY 12, half the \$3.4 million was used for grants.
- <sup>6</sup> Each mandatory conservation program level listed (CSP through GRP) includes a 5.8 percent sequestration cut. Some also include Changes in Mandatory Program Spending (CHIMPS).
- <sup>7</sup> Even though the Administration has not proposed new acreage for the WRP, there is a small amount of acreage left under the cap from the 2008 Farm Bill they are proposing to use in FY 2013.
- <sup>8</sup> Even though the Administration has not proposed new acreage for the GRP, there is a small amount of acreage left under the cap from the 2008 Farm Bill they are proposing to use in FY 2013.
