Washington, DC 20515

The Honorable Robert Aderholt
Chairman, Subcommittee on Agriculture,
Rural Development, Food and Drug
Administration, and Related Agencies
House Committee on Appropriations
Washington, DC 20515

The Honorable Sam Farr
Ranking Member, Subcommittee on
Agriculture, Rural Development, Food and
Drug Administration, and Related Agencies
House Committee on Appropriations
Washington, DC 20515

Dear Chairs and Ranking Members,

As Congress continues work on the FY 2017 Agriculture Appropriations Bill, we the undersigned urge your support **for providing an appropriation for an additional \$10 million annually for the Socially Disadvantaged Farmers and Ranchers and Veteran Farmers and Ranchers Program.**

The Outreach and Assistance to Socially Disadvantaged and Veteran Farmers and Ranchers (OASDVFR) Program helps our nation's historically underserved producers gain access to the United States Department of Agriculture's credit, commodity, conservation and other programs and services. The program supports technical assistance to producers through community-based organizations, tribes and educational institutions best prepared to reach and serve them.

In the 2014 Farm Bill, Congress expanded the Outreach and Assistance Program for Socially Disadvantaged Farmers and Ranchers to include Veteran Farmers and Ranchers, and also reduced mandatory funds from the previous funding levels of almost \$19 million annually to only \$10 million direct each year. The Farm Bill provided for an additional appropriation of up to \$20 million more annually. **We urge the committee to appropriate the additional \$10 million needed to restore the program to its previous levels.**

- Established in Section 2501 of the 1990 Farm Bill, OASDVFR provides technical assistance to reduce the trend among socially disadvantaged and veteran producers of engaging in fewer farm program payments, fewer and lower-valued loans, and less outreach and training than other producers.
- The OASDVFR Program has served more than 100,000 rural constituents and is an invaluable resource for the more than 400 counties in more than 35 states where it has been implemented serving a wide range of socially disadvantaged recipients living in persistent poverty areas of the country.

- In recent years, work under the program is bringing producers back to USDA or in the door for the first time with greatly increased participation by diverse producers in the NRCS high-tunnel program and in the FSA microloan program.
- With adequate resources, the OASDVFR Program can also provide critical support for veteran farmers and ranchers. The 2010 Census identified 21.9 million veterans in 2009, including 156,000 American Indian Veterans, 2.4 million African American Veterans, 1.2 Million Hispanic Veterans, and 265,000 Asian Veterans. Many Veterans are from rural areas.
- The lack of funding for the program in FY 2013 and cut in funding in FY 14 and 15 has meant that groups receiving support across the country have already or are currently in the process of laying off hundreds of experienced staff, creating a service gap to thousands of producers who need their assistance to access USDA program.

We strongly support this important program and urge the committee to provide **\$10 million in appropriated funds in FY 2017 to restore total funding to \$20 million annually to accommodate both the traditional and new constituencies of the program, and ensure that Veteran Farmers and Ranchers are able to fully benefit from the program.** Adequate funding for the OASDVFR Program will increase farm livelihoods and cooperatives in rural communities, advance intergenerational land tenure and promote familial and community wealth for socially disadvantaged and veteran producers.

We appreciate your support of our nation's most underserved farmers and ranchers,
