NOTES ON CHART:

ss = authorized at “such sums as may be appropriated” rather than a specific dollar amount

= Amounts followed by “#” mandatory funding levels provided in the farm bill through the Commodity Credit Corporation or directly from the Treasury. Many programs with mandatory funding also include an authorization for discretionary funding, and receive discretionary appropriations. Other programs with mandatory funding are cut through the appropriation process through CHIMPS – Changes to Mandatory Program Spending.

Discretionary Programs. These programs are authorized by the 2018 Farm Bill, an earlier farm bill, or another agricultural authorization bill for which the actual funding level for the program in any given year is determined by the annual appropriations bill. Discretionary programs also include programs without specific authorizations that are started by USDA under more general authorities.

Mandatory Programs. These programs were provided mandatory (direct) funding in the 2018 Farm Bill, an earlier farm bill, or some earlier authorization bill, not normally subject to change in the appropriations bill. However, over the years, the appropriations committee has sometimes made use of a technique to limit or eliminate mandatory spending by not providing appropriated funds to pay for the salaries and expenses of USDA staff to implement the program. This allows the appropriators to kill or limit the program in question and then spend the money saved on discretionary programs.

CHIMPS = Change In Mandatory Program Spending, which refers to cuts that appropriations bills make to “mandatory” (also known as “direct” or “non-discretionary”) spending.

ⁱ Amounts reflect FY17 Sequestration – 6.9 percent from mandatory programs; discretionary programs subject to budget caps.

ⁱⁱ Amounts reflect FY18 Sequestration – 6.6 percent from mandatory programs; discretionary programs subject to budget caps, which were raised by BBA18.

ⁱⁱⁱ Amounts do not reflect sequestration.

^{iv} Authorized levels reflect changes made in the 2018 Farm Bill.

^v Sequestration will continue to apply for FY19 mandatory programs but that percentage is not yet reflected here but expected to be approximately 7%,

^{vi} The President’s FY 2019 budget proposal assumed that programs without permanent baseline would not be included in the 2018 Farm Bill and thus were provided no mandatory funding.

^{vi} The 2018 Farm Bill combines BFRDP and 2501 into the Farming Opportunities Training and Outreach Program. Both mandatory and discretionary funding is split equally between the two programs.

^{vii} Section 2501 is shorthand for “Outreach and Assistance for Socially Disadvantaged and Veteran Farmers and Ranchers Program.”

^{viii} The President’s budget for FY19 creates an Office of Partnerships and Public Engagement by combining the Office of Advocacy and Outreach; the Faith-Based and Neighborhood Partnerships staff; the Office of Tribal Relations; and the Military Veterans Liaison. What was OAO is now part of OPPE. Additionally, the 2018 Farm Bill formally changes the name of OAO to OPPE.

^{ix} The 2014 Farm Bill provided mandatory funding of \$63 million for VAPG for the life of the 2014 Farm Bill FY 2014-2018 (sequestered to \$58.5). USDA obligated approximately \$20 million in FY15 and \$34 million in FY16 from the mandatory funds.

^x The 2018 Farm Bill combines FMLFPP and VAPG into the Local Agriculture Market Program. Both mandatory and discretionary funding is split between the two programs. The amount listed is the total combined discretionary authorization for LAMP.

^{xi} The 2014 Farm Bill provides \$5 million in mandatory funding over 5 years. This figure does not reflect an annual amount. Sequestration is applied once to the entire 5-year pot, using the FY 2014 sequestration rate of 7.2 percent. This leaves \$4.6 million available for FY 2014-2018.

^{xiii} The 2018 Farm Bill includes \$5 million in mandatory funding for a new data collection system on organic import enforcement administered by NOP.

^{xiii} Not subject to sequestration.

^{xiv} FY19 funding for Conservation Operations reflects the fact that \$70.8m in funding was transferred to the FPAC Business Center as NRCS staff and functions have been transferred as part of the reorganization, but will still achieve same goals and thus reflect the higher funding levels provided in House FY19 bill.

^{xvi} CHIMPS to EQIP, CSP, and ACEP in FY17 and FY18 reduce the amount of money available to RCPP.

^{xviii} The cut to AMA in the FY 17 omnibus is limited to the NRCS portion of the program. The organic certification cost share portion of AMA is left intact.
