

AGRICULTURE APPROPRIATIONS CHART
FISCAL YEAR 2027

APRIL 2026

NOTES ON CHART:

* = report language included related to this program; this feature was added to the chart in FY24

ss = authorized at “such sums as may be appropriated” rather than a specific dollar amount

= Amounts followed by “#” are mandatory funding levels provided in the farm bill through the Commodity Credit Corporation or directly from the Treasury. Many programs with mandatory funding also include an authorization for discretionary funding, and receive discretionary appropriations. Other programs with mandatory funding may be cut through an appropriations process known as CHIMPS (see note below).

Discretionary Programs. These programs are authorized by the 2018 Farm Bill, an earlier farm bill, or another agricultural authorization bill for which the actual funding level for the program in any given year is determined by the annual appropriations bill. Discretionary programs also include programs without specific authorizations that are started by USDA under more general authorities. **If an amount is NOT marked by # then it is a discretionary funding level.**

Mandatory Programs. These programs were provided mandatory (direct) funding in the 2018 Farm Bill, an earlier farm bill, or some earlier authorization bill, and are not normally subject to change in the appropriations bill. However, over the years, the appropriations committee has sometimes made use of a technique to limit or eliminate mandatory spending by not providing appropriated funds to pay for the salaries and expenses of USDA staff to implement the program. This allows the appropriators to kill or limit the program in question and then spend the money saved on discretionary programs.

CHIMPS = Change In Mandatory Program Spending, which refers to cuts that appropriations bills make to “mandatory” (also known as “direct” or “non-discretionary”) spending. NSAC’s appropriations chart continues to track programs with mandatory spending that have historically been at risk of CHIMPS. A program with “No CHIMPS” in the cell with no other amount listed can be assumed to be fully funded at the mandatory authorization level.

FY2027 Sequestration. According to the Balanced Budget & Emergency Deficit Control Act of 1985, mandatory sequestration remains in effect for FY2027. The most recent sequestration rate has not yet been released for FY2027, but for FY2026 were projected at a reduction of 5.7 percent.

Inflation Reduction Act. The Inflation Reduction Act of 2022 (IRA, PL 117-169) appropriated nearly \$20 billion to numerous federal programs - CSP, EQIP, ACEP, RCPP, REAP, and the Greenhouse Gas and Inventory Assessment Program (GHG I&A) - all of which are historically tracked in this appropriations chart. However, this chart *does not* currently reflect any spending initiated by the IRA.

FISCAL YEAR 2027 AGRICULTURAL APPROPRIATIONS (\$ MILLIONS)

¹ Amounts do not reflect sequestration and do not include ARPA COVID response funding. See “FY2027 Sequestration” note on page 1.

² Amounts do not reflect sequestration and do not include covid response funding or Inflation Reduction Act funding.

³ Amounts do not reflect sequestration.

⁴ Amounts do not reflect sequestration.

⁵ P.L. 119-21 provided CSP, EQIP, ACEP, and RCPP with increased funding that stair-steps up from FY2026 -FY2031; the amount authorized for FY27 is reflected in this column.

⁶ Amounts do not reflect sequestration.

⁷ P.L. 119-21 provided SCRI with \$175 million in mandatory funding for FY2026 and beyond, an increase of \$95 million over its FY2025 mandatory funding level of \$80 million.

⁸ The 2018 Farm Bill combines BFRDP and Section 2501 into the Farming Opportunities Training and Outreach (FOTO) Program. Both mandatory and discretionary funding is split equally between the two programs.

⁹ Section 2501 (or 2501) is shorthand for the “Outreach and Assistance for Socially Disadvantaged and Veteran Farmers and Ranchers Program.”

¹⁰ This includes both the Rural Cooperative Development Grants general program, as well as the Socially-Disadvantaged Groups Grants subprogram, for which \$3 million is set-aside.

¹¹ The 2018 Farm Bill provided mandatory funding of \$19 million for VAPG through LAMP, which includes \$17.5 million for grants and \$1.5 million for administrative expenses.

¹² The 2018 Farm Bill combined FMLFPP and VAPG into the Local Agriculture Market Program (LAMP). Both mandatory and discretionary funding is split between the two programs. The amount listed is the total combined discretionary authorization for LAMP.

¹³ P.L. 119-21 provided SCBG with \$100 million in mandatory funding for FY2026, an increase of \$15 million over its FY2025 mandatory funding level of \$85 million.

¹⁴ The 2018 Farm Bill includes \$5 million in mandatory funding for a new data collection system on organic import enforcement administered by NOP; this is one-time funding spread over five years, not annual funding.

¹⁵ This includes both the grant funding and administrative expenses for LAMP's subprograms, the Farmers Market and Local Food Promotion Program and the Regional Food System Partnership Program (RFSP). FMLFPP is provided \$23.5 million for grants, RFSP is provided \$5 million for grants, the remaining funds are for administrative expenses.

¹⁶ Not subject to sequestration.

¹⁷ Funding provided for CTA includes climate hubs, \$1m for a soil health initiative, and \$14m for GLCI in FY22 and FY23.

¹⁸ Funding for CTA in FY24 included \$7m for the Office of Urban Ag and \$3m for fencing cost-share, in addition to \$10m for GLCI.

¹⁹ Funding for CTA in FY25 included \$7m for the Office of Urban Ag and \$3m for fencing cost-share, in addition to \$10m for GLCI. The overall conservation operations account saw a roughly \$20 million reduction in the FY25 Continuing Resolution (CR) because there were no earmarks funded via the CR.

²⁰ Funding for the Grazing Lands Conservation Initiative is included as part of CTA funding.
